ECO2 [ECO2]

Base Price: \$7,895.00

Overview

ECO2 is PRC's most advanced AAC device and Windows® XP-based computer in one – fast processing speed and plenty of computing power for greater communication results. "One touch" transition from computing to speech output.

A dedicated version of ECO2 without the computer capabilities is also available to meet Medicare/Medicaid funding requirements.

With its large 14.1" XGA TFT display, larger keys make access easier for those with visual or motor challenges.

ECO comes pre-programmed with a full range of Unity®, the innovative language software featured in PRC devices.

Features

- Built-in player allows user to import WAV files and play MP3/WMA files in stereo.
- Auditory prompts to aid individuals with visual impairments.
- Integrated device includes full features of a Windows XP-based device including menu-driven programs and the ability to run software programs right off the store shelf.
- PRC Application and Support Software (PASS™)
- Infrared environmental control functions control common IR devices, i.e., lights and TV/DVD players.
- Integrated Bluetooth® connectivity
- Notebook capability for creating or storing text.
- Special vocabulary sets for adults with acquired language disorders.
- ECO2 is the only integrated AAC device that allows the vocabulary program to serve as the user's onscreen keyboard for accessing personal computing software.
- Voices:
 - AT&T Natural Voices
 - Acapela Text-to-Speech
 - Fonix-DECTalk Text-to-Speech software
 - RealSpeak Text-to-Speech
 - [Click here for a Male voice sample](#)
 - [Click here for a Female voice sample](#)
- Access methods include, direct selection; single- or dual-switch scanning; USB connectivity allows use of head-pointing systems, mouse, USB joystick and mouse emulation access products.
- Integrated headpointing system utilizes Madentec's Tracker One technology.
